# PROJECT MANAGEMENT FOR CONSTRUCTION

MSc

# MSC PROJECT MANAGEMENT FOR CONSTRUCTION

DEVELOP YOUR MANAGEMENT SKILLS SO THAT YOU CAN LEAD MULTI-ORGANISATIONAL TEAMS ON CONSTRUCTION PROJECTS.

Learn about the tools and techniques that can help you confidently manage technical, commercial, organisational, financial and legal issues that can appear in a project's lifecycle.

## COURSE OVERVIEW

This course examines whole projects from initiation through to delivery. You'll be challenged to examine real case studies so you're ready to face any obstacles construction projects can encounter.

Develop a deep understanding of the economic, social and environmental issues that might affect large construction projects. You'll also familiarise yourself with the industry's main tools and techniques, including Business Information Modelling (BIM) processes.

Whether you're looking to improve your leadership abilities within your current role or move into a more senior management position, you'll leave this course with the skills and confidence to manage complex construction projects.

## ENTRY REQUIREMENTS

- A good honours degree or equivalent in a relevant subject or equivalent industrial and work experience in the construction industry or other related fields
- English language proficiency at a minimum of IELTS level 6.0 with no component score below 5.5 (or **other acceptable proof**), if English isn't your first language
- Experience with multi-disciplinary, complex construction projects on a small or large scale

Applicants who don't have a degree or formal qualifications, but who have appropriate professional experience, may also be considered.

If you're unsure whether you're eligible to apply, please speak to one of our course advisers by phoning **+44 (0)23 9400 3692** or emailing **info@study-online.port.ac.uk**
